

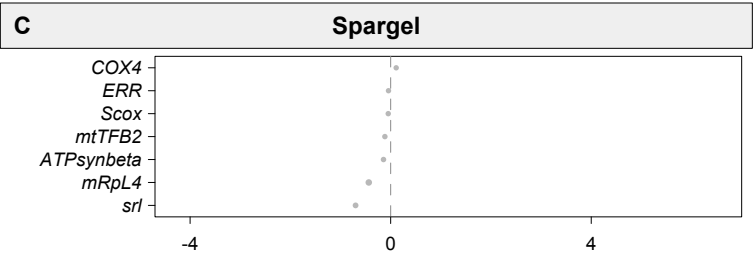

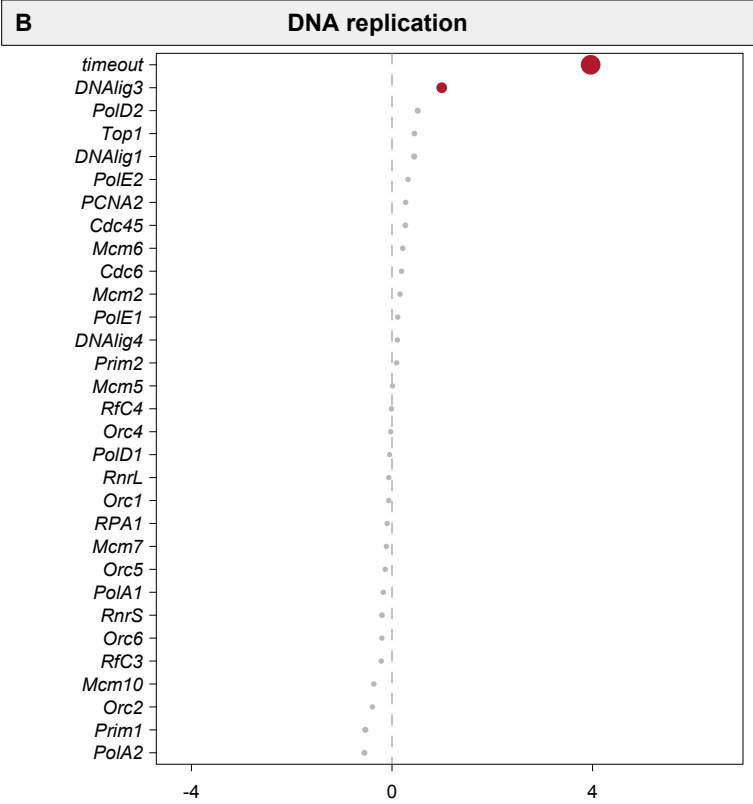

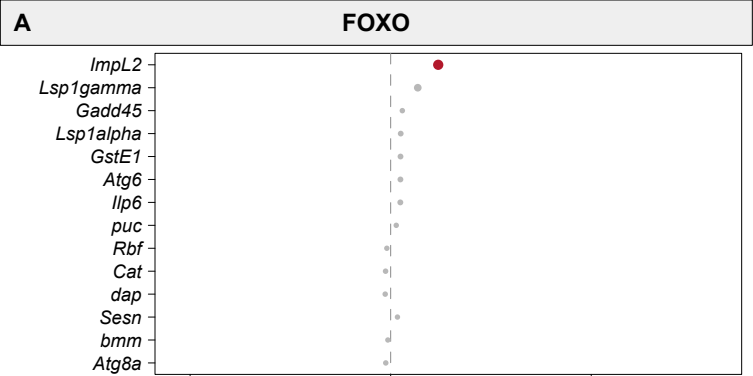

Figure S3. Selected genes and fly homologs of human AMPK-pathway genes

Female dMIC60-CS versus dMIC60-WT; n = 3 biological libraries per genotype

Up in CS Down in CS Below DE cutoffs Adjusted P unavailable

-log10(Padj) 10 30 50 Fold change unavailable

**D** **Fly homologs of human AMPK-pathway genes**

Grouped by human-source pathway roles and protein families
